

The EmeryStar-NLS system is designed to read, communicate with, and stimulate a change in the energy of the light body. It does this in a variety of ways by measuring the photons that come off the body, or from a picture, hair or fingernail sample. It is the same technology the James Webb Telescope uses to scan life and atomic molecules of distant planets, moons, stars, satellites, and other cosmic creations. By sending weak electrical signals, and or receiving them, the system then interprets the body response to the signals. In addition it utilizes and extracts data through the source fields. EmeryStar NLS Systems use Source Fields along with Radionic, Photonic, Harmonic, and Scalar energies to decipher, read, assimilate, correct and scan of 880,000 frequencies in the body. Once the initial Scan and Treatment is completed, the program returns a stereotactic representation of any located photonic anomalies in the body's crystalline structure via 3D rendering on a 2D screen or report. In addition to all body systems, it also checks DNA, RNA, and CHROMOSOMES for anomalies to see if they were genetic or acquired. The system and pilot then reports the greatest most prominent health risk to the patient. It takes a Certified EmeryStar Clinical Pilot aka,(ESCP),and the device to decipher a triage of data, 1800 pages of data. This takes usually 7 days to complete. We then call the patient back to discuss our findings on a conference call. During this time we may recommend supplements , remedies, and or a 30 day EmeryStar STAT PACK (emerysmith.co). After that we schedule another treatment called a destruct treatment which is included with the first scan price (\$2500). This is where we go back into the body and destruct the parasites, viruses, and bacteria responsible for the dis-ease or cancer. Its normal to feel detox symptoms days after killing mass amounts of parasitic infections. Part of the protocol is that patients take 4 ounces of the Aquafarian Nano Blue morning and night, the night of the Scan and day of destruction. We do 90% of our scans at night because the scan puts you in a beautiful Zen restful state.

Full body scan down to DNA & RNA with 5 Meta therapies and 1 destruct session. 880,000 frequencies Scanned including Etheric Energy Chakras.*(This therapy does not require you to be present.) It is a non-linear frequency connection scan that will be done using either a current face picture, hair follicle, finger nail or toe nail to make the connection on our scanner. The scan takes 3-6 hours to

complete the scan, and an additional 8-12 hours for our team of frequency specialists to review and read. Once the review is done, a destruct session will take place. Our team will let you know if any additional destruct sessions or Scans will be required after 30 days of treatment. (Additional scan sessions will carry a price tag of \$1500 per session which includes a destruct treatment which can be purchased on this site. EmerySmith.co

Printed Report and Follow up to go over Scan is included along with one Destruct Session usually one to two weeks after initial scan.

Medical Disclaimer:

All EmeryStar LLC Products listed here and on our Website (www.emerysmith.co) are not intended to diagnose, prevent, treat, remedy or cure any disease, however its Gold Nanoparticles (GNPs), Zinc Nanoparticles (ZNPs), and Silver Nanoparticles (SNPs) boost brain function over time. According to the US National Institutes of Health (NIH) paper PMID: 33907028 from December 2021 entitled “Advance in the use of gold nanoparticles in the treatment of neurodegenerative diseases: new perspectives” GNPs do boost brain function by reducing the effects of neurodegenerative diseases caused by inflammation and oxidation “due to medical conditions such as alcoholism, a tumor, a stroke, or other causes which may include genetic mutations, toxins, chemicals, and viruses...and can be induced by various neurotoxic events, such as excessive inflammation, reactive oxygen species (ROS) production, and mitochondrial dysfunctions.” This paper goes on to explain that GNPs like those in all of my products have “anti-inflammatory and antioxidant properties and are effective scavengers of ROS, including hydrogen peroxide (H₂O₂) and the superoxide anion (O₂⁻), contributing to the activity of antioxidant enzymes.” For 20 years, users of my products have repeatedly reported improved mental clarity, focus and ability. Gold Nano Particles, Silver Nano

Particles, and Zinc Nano Particles that I have developed, have also been reported to benefit the heart, joints and more.
